

July 14, 2016

Dear Democratic Colleague:

Stronger America: A New American Security Agenda is the product of so many voices within our Caucus and reflects the diversity of our Members. Thank you for your hard work to help develop a message that reflects our values and priorities as House Democrats.

As House Democrats, we must go home with our strong message of solutions for the American people. We will be able to tell our constituents how we will secure their nation, secure their future and secure their democracy.

We hope that you will take advantage of the resources sent to your office as you plan events this summer. It is essential that we all stay disciplined on the top-lines of this message.

Today, House Republicans will leave town with unfinished business that puts the American people at risk: in terms of our national security, economic security and the security of the voices of Americans in their own democracy. They are going home to their districts, and they will have to answer the question, "Why aren't you working to protect me?"

Under separate cover, you are receiving more information about the *Stronger America* agenda and event suggestions for this recess. Please know that your continued input is essential. We welcome your feedback during the recess and at the convention.

Again, thank you for your help in getting to this point. We are proud of the bold message that *Stronger America* sends to the American people.

Best wishes for a productive work period.
